

Donaghys Super Sprayline

For over 30 years Super Sprayline has been the market leader in aerosol stock markers throughout New Zealand and around the world. A scientifically developed formulation specifically designed for use within sheep and cattle systems to enable better stock management and identification.

- Farmers should always follow label instructions and Best Practice Guidelines for Clip Preparation which is to remove all contaminated wool from each fleece
- For general use in sheep and lamb identification
- Also widely used as a multi purpose dairy cow flank and udder marker
- Vivid, long lasting colours
- Can be used in all weather conditions
- Available in 200ml and 400ml sizes, in red, blue, green, orange, yellow and purple
- Easy to hold non-slip cans with an Easi-spray nozzle
- Made in New Zealand

DIRECTIONS FOR USE:

- Shake can well
- Mark the wool with the marker nozzle no closer than 150mm
- Avoid heavy application
- Apply only to the head or tail
- Avoid marking wool just prior to shearing
