Weed Weapon Invade Gel

About

<u>Weed Weapon Invade Gel</u> is a powerful gelled herbicide that can be painted onto the cut stems of tough weeds immediately after cutting to kill the root systems and prevent re-growth.

Benefits and Features

- Targeted spot treatment of tough and creeping weeds.
- Does not move through soil; will not harm surrounding plants.
- Can be used for spot treatment of weeds including course grasses in lawns.
- Ideal for use in environmental projects, garden beds, around established natives, ornamentals, shrubs and trees.
- Red colourant makes it easy to see where treatment has been applied.
- Gel formulation:
 - Stable humectant gel
 - Adheres well to newly cut stems
 - Releases glyphosate from gel matrix
 - Formulated to resist drying and washing off
 - Giving time for high ai dose
 - Moves easily into stem/stump to roots systemic

Controls

- <u>Nightshade</u>
- Old Man's Beard
- <u>Convolvulus</u>
- <u>Bindweed</u>
- <u>Broom</u>
- <u>Gorse</u>
- Willow
- <u>Kikuyu</u>

- Paspalum
- <u>Couch/Twitch</u>
- <u>Poa annua</u>
- Dandelions
- Fumitory
- Wild ginger
- Tree lupin
- <u>Mallow</u>

- <u>Plantain</u>
- <u>Speedwell</u>
- Onion weed
- <u>Thistle</u>
- <u>Yarrow</u>
- <u>Nettle</u>
 - ...and many more

Ideal Uses

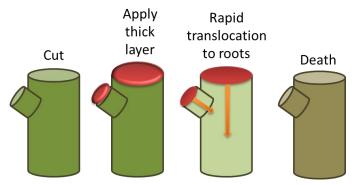

- Tough and creeping weeds.
- Where spraying could be harmful to desirable plants close by.
- Spot treatment of <u>course grasses in fine turf lawns</u>.

Directions

Weeds:

- 1. Cut down below the lowest green growth and immediately apply gel.
- 2. Hold bottle upside down, with the brush against the stem and squeeze bottle.
- 3. Apply a thick layer to cover the cut surface.

For ivy and other creeping weeds:

- 1. Cut the weed back as much as possible, leaving approx. 20 leaves on the stem of each root system.
- 2. Apply a thick layer on the cut surface and both upper and lower surfaces of the leaves.

Spot treatment of weeds in lawns:

1. Wearing water proof gloves paint gel onto weeds such as kikuyu, paspalum, couch/twitch, poa and others.

For best results

- Apply gel within 15 seconds of cutting weed.
- Do not brush vigorously, avoid foaming gel.
- Best applied when growth is active in Spring and Autumn.
- Do not use when rain is due within 12 hours.
- Some weeds may require an additional application.

Active Ingredients

100 g/L Glyphosate as the Isopropylamine salt.

Registration

HSNO Approval Code: HSR101117.

Available As

Brush Tipped Tube: 250 ml, 5 L Refill.
