Typical analysis (DM basis)

ME	14 MJ ME	Calcium	3%	Iodine	10mg/kg	Vitamins	
Crude protein	8%	Phosphorus	1.5%	Manganese	700mg/kg	A	25,000 iu/kg
Crude fat	6%	Magnesium	0.3%	Zinc	1,000mg/kg	D ₃	5,000 iu/kg
Crude ash	23%	Sodium	2%	Copper	50mg/kg	E	3,000 iu/kg
Typical sugars	36%	Selenium	5mg/kg			B ₁₂	1,000 iu/kg
						C	3,000 iu/kg

Feeding Recommendations

Allow one block per 15 calves up to 12 weeks (up to 80g/head/day), or young stock (up to 300g/head/day).

*Provide a minimum of 2 blocks per paddock.

Contact your local SW sales representative for typical feeding rates and to calculate your stock's total requirements.
