

Evolve Nuts

Complete feed for breeding mares and foals

Suitable for pregnant and lactating mares as well as young growing horses from 3 months of age.

NRM Evolve provides energy, protein, vitamins and minerals required during pregnancy and lactation in a convenient nut-form, ideal to prevent wastage when feeding in bins or from the ground.

A safe, full feed, Evolve provides additional calories to assist with maintenance of optimum body condition. This low glycemic feed is formulated to encourage sound skeletal development in young growing horses. Research undertaken by KER has indicated a significant benefit in providing growing horses with a supplementary feed that has a low glycemic index, relative to conventional grain mixes. Energy is derived from a combination of fats, cooked grains and digestible fibre.

Key Benefits and Features

- Contains natural Vitamin E, which has superior bioavailability compared to synthetic sources and is proven to support immunity in foals.
- Contains yeast culture to increase nutrient availability and maximise hindgut function.
- Contains chromium to enhance glucose and insulin metabolism.
- Convenient nut-form is ideal to prevent wastage when feeding from bins or from the ground.

NATURAL VITAMIN E

SKELETAL DEVELOPMENT

STEADY GROWTH

Typical analysis (approximate on an as fed basis)

Crude Protein	14%
Fat	7%
Fibre (NDF)	25%
Moisture	12%
Digestible Energy	12MJ/kg

Feeding rates

GROWTH STAGE	HORSE WEIGHT	FEEDING RATE
Creep fed foals 2 to 5 months of age	100-200kg	1-2kg
Weanlings 5 to 12 months of age	200-350kg	2-4kg
Yearlings 12 to 18 months of age	350-450kg	3-5kg
Mid to late pregnant mares	500kg	3-4kg
Lactating mares first 60 days	500kg	3-6kg
Lactating mares – late	500kg	2-4kg

Suitable alternatives for NRM Evolve include NRM Progress or NRM Prepare.

THE QUALITY OF NRM PRODUCTS IS GUARANTEED

Nutrient Composition per 1kg of NRM Evolve (on an as fed basis)

Crude Protein	140g	Copper	55mg	Vit K	5mg
Lysine	7g	Selenium	0.6mg	Vit B1 (Thiamine)	6mg
Methionine	2g	Manganese	100mg	Vit B2 (Riboflavin)	11mg
Calcium	10g	Iron	200mg	Vit B3 (Niacin)	25mg
Phosphorus	7g	Iodine	1.2mg	Vit B5 (Pantothenic acid)	13mg
Magnesium	2g	Cobalt	0.4mg	Vit B6 (Pyridoxine)	3mg
Sodium	4g	Chromium	1mg	Vit B7 (Biotin)	120mcg
Potassium	11g	Vit A	10,000IU	Vit B9 (Folic acid)	3mg
Chloride	8g	Vit E	150IU	Vit B12 (Cobalamin)	35mcg
Zinc	130mg	Vit D	1,000IU		

Feeding Recommendation

NRM Evolve can be fed alone or combined with a suitable fibre source. The above recommendations are for horses with a mature body weight of 500kg. Adjust intake according to needs based on breed, body weight, body condition, growth rate and available forage. Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff, fibre products) per day. Always allow free access to fresh, clean water.

Ingredients selected from

Grain co-products, vegetable protein meal, lucerne chaff, soy hulls, molasses, vegetable oil, minerals and salts, KER vitamin and mineral pre-mix, yeast culture, pellet binder, mould inhibitor, mycotoxin binder, apple flavour.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.

Caution: Do not feed to any animal species other than those stipulated on the label.

NRM and Kentucky Equine Research

World Leaders In Equine Nutrition

Kentucky Equine Research (KER) works closely with an international network of horse feed manufacturers dedicated to the advancement of equine nutrition and exercise physiology to produce healthier, more athletic horses. Using advice from KER, NRM feeds are formulated to incorporate the very latest advances in equine nutrition. The combination of NRM's long-standing role as a leader in the New Zealand feed industry and KER's technical expertise in the field of equine nutrition makes NRM feeds some of the most scientifically advanced available in the local market.

NRM Stud & Breeding Horse Feed Range

A range of feeds providing essential ingredients for your horse's well-being.

Developed in partnership with Kentucky Equine Research (KER) and proudly manufactured in New Zealand, NRM feeds are unique blends of nutrients and quality products to optimise the health and performance of your horse.

There is an NRM feed to match the diverse needs of horses through every stage or activity level of their life. It is important to carefully monitor energy levels to ensure that under or over feeding does not occur.
