HSNO Class: 6.3B, 6.4A

Warning: Causes mild skin irritation. Causes eye irritation.

PRODUCT DISPOSAL: Ensure unwanted product is used by another operator strictly in accordance with label directions. Do not allow product to enter waterways, drains or sewers.

CONTAINER DISPOSAL: Triple rinse container and add residue to spray tank. Submit clean empty container for recycling through Agrecovery. If this is not possible bury in landfill.

HANDLING PRECAUTIONS: When mixing or applying wear protective clothing as prescribed for the mixing partners used. Wear gloves and goggles when handling **TRAKKA BLUE**. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

STORAGE: Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from feed, seeds and foodstuffs. Storage must be generally in accordance with NZS8409 Management of Agrichemicals. See the HAZNOTE for further information.

FIRST AID: If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre **0800 POISON (0800 764 766)** or a doctor immediately. If skin, hair or eye contact occurs, remove contaminated clothing and flush skin, hair and/or eyes with running water for several minutes.

GENERAL INFORMATION

TRAKKA BLUE is a blue liquid marker dye to assist in clearly identifying sprayed areas. Use of **TRAKKA BLUE** helps to minimise the problems and losses associated with missed coverage and double overlap spraying.

When used as a colouring agent with **TRAKKA Long Life Marker Foam**, foam will become blue in colour making it easier to see.

Application of **TRAKKA BLUE** to turf, greens and fairways imparts a deep rich colour to green surfaces and provides uniform appearance.

RECOMMENDATIONS:

USE	RATE	COMMENTS
Knapsack Sprayer	10 ml/10 litres of spray solution	Suitable for use with agrichemicals spray solutions to enable clear identification of sprayed areas
Handgun and Boom spray rigs	100 ml/100 Litres of spray solution	
Addition to TRAKKA Long Life Marker Foam	25-50ml/100 Litres of diluted foamsolution	Converts white foam to pale or deep blue (higher rate for deeper colour) for clearer identification on pale surfaces.
TurfBoom application to parks and fairways Golf Greens Knapsack application	600 – 1000 ml /ha 6 – 10ml/ 100M2 30ml / 5 litres	Use higher rates for deeper richer colour.

MIXING INSTRUCTIONS

To achieve thorough mixing, premix **TRAKKA BLUE** with water at a ratio of 1:10 before adding to the spray tank or knapsack sprayer. Add the premix to the spray tank first and follow with water to half fill the tank. Add other ingredients and continue to fill the spray tank with agitation system operating. Maintain agitation until spraying is complete.

SPRAYER CLEAN UP

Wash out all spray equipment thoroughly after use as product residues can cause discolouration of subsequent sprays. The use of All Clear® 2X is recommended to help eliminate the marker dye and any active chemical remaining in the sprayer system

Exclusion of Liability: Please Read: To the extent permitted by law, buyers and/or users of the goods accept that neither the manufacturer, UPL New Zealand Limited as distributor, nor any other distributor have any liability or responsibility whatsoever for any loss, damage or injury whether in contract or tort, whether direct, indirect or consequential howsoever arising in connection with the supply of these goods.
