A unique blend of legumes, our TrueFibre Timothy hay pellets, coconut oil and two plant-based products, Pectin and Lecithin, targeted to aid in the prevention of stomach ulcers in horses. A brand new concept, there is currently nothing like it on the market. Designed in-line with current research, Pectin and Lecithin are considered beneficial in assisting with the prevention and healing of gastric ulcers in horses. Grain-free, soy-free, molasses-free & mineral-free, GastroFuel gives you the option to supplement as required, and is a safe feed for horses and ponies that cannot have grain and sugars. As there is no mineral mix, we are labeling this as a mash rather than a complete feed. We recommend GastroFuel to be fed with plenty of natural fibre.

SUGGESTED FEEDING RATES

- 350Kg 0.5 - 1Kg
- 450Kg 1 - 1.5Kg
- 550Kg 1.5 - 2Kg
- 650Kg 2 - 2.5Kg

*These are guidelines only.
